Betamore Academy skills (12 - week course):

* Built an ecommerce web application 'Betamore' using Rails v 4.1.4 and Ruby v 2.1.2.
  https://github.com/clotekidd/betamore
* Implemented OR fundamentals to Functional and Object Oriented Programming.
* Used Rails built in Unittest suite to practice Test Driven Development using gems such as Capybara and Launchy.
* Queried databases using SQL and Postgresql via the terminal and Navicat.
* Delved deep into Active Record tables and migrations to find and select search queries via SQL.
* Gained a solid foundation of the MVC framework.
* Demonstrated successful testing techniques using the RESTful architecture.
* Tested controllers to correctly work with the Asset Pipeline.
* Implemented Bootstrap and CSS3 CSS techniques.
* Organized partials ensuring the code was clean and legible.
* Used Heroku, Postgresql, and Unix in to deploy the application.
* Secured the application with Strong Parameters and the Devalence gem.
* Added efficiency with ActiveWider, Widget, and Methods ter.

Other Personal Web applications/sites viewable on GitHub:

'BeingMindful' https://github.com/clotekidd/being_mindful
    Handled the full back.
    Gained experience with Rspec, Cucumber, Dragonfly, Capybara, Continuous.

'Lords Alarm' https://github.com/clotekidd/lords_alarm
    Gems include: Rspec, Ripenikp, Continuous.
    Handled the full back.

'JKS Technology Holdings' www.jnkechlic0ldings.com
    Built the entire site from scratch in HTML5 CSS and Photoshop.
